Secondary Education- Percentage - 87.50%

07 2015 – 05 2016
Kanpur, Uttar Pradesh

COURSEWORK

- Data Structures & Algorithms
- Operating Systems
- Database Management System (DBMS)
- Web Development
- OOPS Concept

PROJECTS

Quick Bite Delivery | Java Spring Boot

04 2024

- A food ordering app allows users to browse menus from local restaurants, place orders for delivery or pickup, and make secure payments online. It offers features such as real-time order tracking, personalized recommendations, and user reviews.
- Developed using **Spring Boot (Java)** for backend, **React.js** for frontend, and **MySQL** for database management.
- [GitHub Link](#)

Hospital Management System | MERN Stack

12 2023

- About project The Hospital Management System, patients can easily book appointments with doctors of their choice directly from the app, taking into account the availability of doctors and preferred time slots. Hospitals benefit from centralized appointment management, allowing them to efficiently allocate doctor's time and resources according to demand.
- Developed a Hospital Management System using **MongoDB** for backend, **React.js** for frontend, and **Express.js** for server-side development.
